

Image for demonstration purposes

Generating Set RENTAL BUILDING - diesel

GE.AI3A.066/060.RB+011

1500 rpm - Threephase - 50Hz - 400V **Automatic Panel with AMF without ATS**

Standard equipment

Canopy Soundproofing

Removable soundproof canopy Painting canopy (ral) in galvanized sheet steel Soundproofing with class 1 polyester material Handles with key lock and automatic closing Special baffles for air intake and air expulsion Inspection doors with hermetic gasket Automatic doorstop Externally and internally washable with sprayer

Exhaust

Residential exhaust system -35dB(A) Exhaust rain cap

Fuel Supply

Single wall daily tank with 110% bunded base Plug & play fuel connections Bulk tank connections with 3 way valve Automatic shutdown system for low fuel level Fuel gauge Mechanical fuel gauge Increased fuel hatch for washing

A Handling

Oversized lifting hook Base frame with anti-overturning forklift pockets Loadable side by side for truck transportation **Rubber bumpers**

Base Frame

Bunded base at 110% of fuel tank capacity Anti-vibrating mounting pads Battery compartment externally accessible for easy service

Engine

High coolant temperature and low oil pressure shutdown External oil drain points Oil change pump Engine liquids (oil and antifreeze) Tropicalized radiator Rotating parts protection

Avr automatic voltage regulator Impregnation for marine environment

Panel & connection **Emergency stop button**

Switch on panel board Rcd with adjustable current and excludible Tamperproof panel ip55 Male socket for battery charger and engine pre-heater (if provided) power supply Cable output from rear lp44 wiring Start-up battery (pre-charged) Plug & play connector for bus communication between controller (only variant +14) 5 sockets module with magnetothermal circuit breaker and

Control Systems on board QPE-C-OSC-70-RB

operating scheme - schema di funzionamento

QPE Automatic panel without switching on board

The QPE-C control panel represents the evolution of the panel for the control and management of the gen set. With its microprocessor logic it is able to meet any user requested features. The dual operation mode manual and automatic guarantees to every type of functionality protection, analysis and control of the generating set in order to make the management easy and efficient. Variant without transfer switch on board. ATS panel type QC as optional. The panel manages the QC panels directly or any other ATS panel.

Mechanical features

IP 55
Ir 33

Battery charger

Model		ELCOS - CB1
Maximum output current	Α	2,5
Output dc voltage (selectable)	Vdc	12-24
Input ac voltage (selectable)	Vac	220-260
Frequency	Hz	50-60

Sockets module

CONTROL MODULE SPECIAL FUNCTIONS (on demand)

Automatic charging of an external battery Dummy load (4)

Load shedding (4)

Redundant starter motor management

Fuel monitoring Gs battery load test

Idle mode

Service phone number indication

Variable speed generator Master / slave mode

OPTIONAL

Canopy customized painting (ral)
Anti-sand louvre
High resistence painting for harsh environment condition

Exhaust

Spark arrestor

Fuel Supply

Automatic fuel refilling system on board Fuel refilling from outside with tank overflow lamp

Handling

On road trailer Off road trailer

Engine

Engine pre-heater 230v
Oil pressure and coolant temperature gauge (only with qpe or +14 variant)

Engine liquids + 50°c, - 40°c (oil and antifreeze) Electronic speed governor Automatic refilling oil system 1000 working hours spare parts kit Cyclone air filter Redundant start-up battery kit

Alternator

Avr pre-arranged for parallel Stator windings thermistors - pt100 - in the alternator box (not managed)

Anti-condensation heater

Panel & connection

Magnetothermal circuit breaker inspectable from the outside c/w cable slide and cable clamps
Utf energy meter with arcudi terminal
Mccb open switch in the event of terminal box panel opening
Internal led lighting system into terminal box
Internal led lighting system for canopy
Siren and generator status lights kit
High efficiency start-up battery (pre-charged)
Additional sockets for socket module (max 4 sockets)
Genset start/stop device on load demand
Grounding points
Power locks

MC4 optional

Telemonitoring with software
Remote panel
Rs485/usb converter
Rs485/lan converter
16 relais card (volt free output)
Gms modem - sms remote management
Radiocontrol
Gsm remote control system with web application without sim card
Gps tracking system

PRP

Engines of this rating provide unlimited hours of usage in a variable load application. The average load factor should not exceed 70% of the engine's prime power rating with a maximum number of 500 operational hours at 100% prime power rating. An overload capability of 10% is available, however, is limited to a period of 1 in every 12 hours

LTP

Limited-time running power is defined as the maximum power available, under the agreed operating conditions, for which the generating set is capable of delivering for up to 500h of operation per year with the maintenance intervals. The overload is not allowed.
