

Image for demonstration purposes

Generating Set SUPERSILENT - diesel

GE.BD.825/750.SS+011

1500 rpm - Threephase - 50Hz - 400V Automatic Panel with AMF without ATS

Standard equipment

Canopy Soundproofing

Soundproofing with class 1 polyester material Handles with key lock and automatic closing Special baffles for air intake and air expulsion Inspection doors for controls and maintenance

Exhaust

Exhaust rain cap Exhaust manifold protection Insulated exhaust pipes Internal residential muffler - 35dB(A)

Fuel Supply

Single wall daily tank with bunded base Automatic shutdown system for low fuel level Fuel gauge

Handling

N.2 lifting hooks integrated into the bearing structure

Base Frame

Bunded base at 110% of fuel tank capacity Anti-vibrating mounting pads Battery compartment externally accessible for easy service

Engine

Engine pre-heater 230v High coolant temperature and low oil pressure shutdown system Oil pressure and coolant temperature gauge (only with qpe or +14 variant) Engine liquids (oil and antifreeze) Tropicalized radiator Rotating parts protection Electronic speed governor

Alternator

Avr automatic voltage regulator Avr pre-arranged for parallel Three-phase sensing avr Impregnation for marine environment Ip23

Panel & connection

Emergency stop button Magnetothermal circuit breaker on alternator board Tamperproof panel ip55 Cable output from side Ip44 wiring Start-up battery (pre-charged) Grounding point

Documentation

Ce conformity declaration User and maintenance manual Wirings diagrams

Normatives

All generating sets are compliant to CE marking 2014/30/UE electromagnetic compatibility 2000/14/CE noise emission for outdoor use Factory-designed systems built according to ISO 9001:2015 CEI EN 60204-1:2018 - Electrical equipment of machines

Primary data

Speed	RPM	1500
Frequency	Hz	50
PRP	KVA	750
Prp - prime power	KW	600,0

Max altitude	mt	1000

Control Systems on board QPE-C-VSC

operating scheme - schema di funzionamento

$\ensuremath{\textbf{QPE}}$ Automatic panel without switching on board

The QPE-C control panel represents the evolution of the panel for the control and managment of the gen set. With its microprocessor logic it is able to meet any user requested features. The dual operation mode manual and automatic guarantees to every type of functionality protection, analysis and control of the generating set in order to make the managment easy and efficient. Variant without transfer switch on board. ATS panel type QC as optional. The panel manages the QC panels directly or any other ATS panel.

Mechanical features

|--|

Battery charger

Model		ELCOS - CB1	
Maximum output current	А	2,5	
Output dc voltage (selectable)	Vdc	12-24	
Input ac voltage (selectable)	Vac	220-260	
Frequency	Hz	50-60	

Data Communication

Data connection port	RS-485
Communication protocol	Mod-bus RTU-8N1

Remotable functions in terminal box

Gs start Genset contactor close/open command Common alarm - dc output Gs start with key in off position (only in mrs mode) Management of the automatic fuel refilling system Gs lock Mains contactor close/open command Gs test without load Programmable output - volt free output

Control Module

Specifics

Applications Emergency to the mains Stand-alone Construction site/rental Self-production

ENGINE MEASURES

Fuel tank level % Engine oil pressure bar (1) Engine coolant temperature °c (1) Total run time Partial run time Hours to maintenance Battery voltage Battery charging voltage Start-ups counter Engine speed (2) Engine oil temperature (2) Cooler temperature (2) Engine oil level (2) Engine coolant level (2) Engine coolant pressure (2) Turbo pressure (2) Fuel consumption (2) Tank autonomy - hrs (5) Fuel remaining quatity (5) Fuel used quantity (5)

ALTERNATOR MEASURES

Generator voltage 11, 12, 13 Generator voltage 11-n, 12-n, 13-n Generator frequency Generator current 11, 12, 13 Generator apparent power kva Generator active power kwa Generator reactive power kvar Generator accumulated power kwh Power factor cosfi

MAINS MEASURES

Mains voltage 11, 12, 13 Mains voltage 11-n, 12-n, 13-n Mains frequency

COMMUNICATION PORTS Can-bus port

Rs485 port with mod-bus rtu communication Rs232 port for display connection Usb port for parameters saving and firmware update

Brand	ELCOS
Model	MC4
Operating mode	AMF - MRS

GE.BD.825/750.SS+011

OPTIONAL

Canopy Soundproofing

Canopy customized painting (ral) Double soundproofing -2 dB(A) @ 7 mt Lift-off doors kit Ip 43 conveyors

Exhaust

Exhaust pipe Exhaust flexible expansion joint Exhaust flexible pipe (fap) anti-particulate filter Exhaust catalyst (cat)

Fuel Supply

Oversized tank Fuel connections Bulk tank connections with 3 way valve Automatic fuel refilling system on board Automatic fuel refilling system on trestle

Engine

Engine pre-heater 230vsuper hot Oil change pump Engine liquids + 50°c, - 40°c (oil and antifreeze) Battery disconnector Automatic refilling oil system Cyclone air filter Redundant start-up battery kit

Alternator

Stator windings thermistors - pt100 - in the alternator box (not managed) Bearing thermistor - pt100 - in the alternator box (not managed) Anti-condensation heater Double bearing Ip44

Panel & connection

Rcd with adjustable current and excludible Automatic transfer switch (qc) Utf energy meter with arcudi terminal 5 sockets module with magnetothermal circuit breaker and general rcd

MC4 optional

Telemonitoring with software Remote panel Rs485/usb converter Rs485/lan converter 16 relais card (volt free output) Gms modem - sms remote management Radiocontrol Gsm remote control system with web application without sim card Gps tracking system

PRP

Engines of this rating provide unlimited hours of usage in a variable load application. The average load factor should not exceed 70% of the engine's prime power rating with a maximum number of 500 operational hours at 100% prime power rating. An overload capability of 10% is available, however, is limited to a period of 1 in every 12 hours

LTP

Limited-time running power is defined as the maximum power available, under the agreed operating conditions, for which the generating set is capable of delivering for up to 500h of operation per year with the maintenance intervals. The overload is not allowed.
